While the betas contain new features, they also contain pre-release bugs that can prevent the normal use of your iPhone, iPad, Apple Watch, Apple TV, or Mac, and are not intended for everyday use on a primary device.. That's why we strongly recommend staying away from developer previews unless you need them for software development, and using the public betas with caution.. Unlike other programs of this kind, TransType does the conversion with full respect to codepages, encodings, font suitcases, bitmap fonts, and other features specific to the Mac or PC platform.. Apple occasionally offers updates to,,, and as closed developer previews or for iPhone, iPad, Apple TV and Mac (sadly, no public beta for the Apple Watch).. TransType organizes font families, fixes font problems, and allows you to play and experiment with monochrome and multi-color fonts.
